Frontend Developer with around one year of professional experience building responsive and maintainable web applications for client-based products. Experienced in React/Next.js and Vue.js/Nuxt, with a strong focus on clean UI implementation, API integration, and collaborative product delivery.

RELEVANT EXPERIENCE

Frontend Developer

Remote

PT Wiraharja Graha Software, Full-time

September 2025 – Present

- Developed and maintained frontend features for client-based web applications across YUIME and Vidsee using React, Next.js, Vue.js, Nuxt, TypeScript, and Tailwind CSS.
- Contributed to an internal web application for YUIME, a Japanese client, focusing on UI components, data tables, forms, and operational workflow interfaces.
- Built a white-label video streaming web platform for Vidsee, an Asia-based short film streaming platform, covering core pages such as homepage, user page, video detail, profile, and edit profile.
- Implemented key user-facing features including authentication, authorization, comments, video likes, add-to-playlist flow, claim mission, localization, and API-driven content sections.
- Collaborated with designers and developers to translate product requirements into responsive, maintainable, and production-ready frontend interfaces.

Frontend Developer

Makassar, Indonesia

PT Liny Jaya Informatika, Full-time

February 2025 – July 2025

- Built responsive frontend interfaces for a client-based web application using React, Tailwind CSS, Axios, and Lucide React
- Integrated REST APIs, implemented reusable UI components, and handled frontend states to support core application flows

Dicoding Indonesia

Remote

Mentor SIB Dicoding X Kampus Merdeka Batch 4, Part-time

February 2023 – June 2023

- Mentored 25 participants in frontend and backend development through consultation sessions, 1:1 mentoring, code reviews, and group projects

SELECTED PROJECTS

betewe.vercel.app - An online discussion platform for undergraduate students, featuring authentication, questions, answers, voting, categories, and rich text content creation.

bankjalin.vercel.app - Banking application with gamification features. This project is the final project of the SYNRGY Academy, a scholarship program for Indonesia digital talent through a bootcamp program.

penjadwalan-perkuliahan-uhm-v2.vercel.app - A web application that generates optimized university lecture schedules, reducing manual scheduling time from days to seconds.
